

## Montessori Toddler Summer Program Themes

**Art Appreciation and Techniques:** Let's explore the wonderful world of the Arts. This two week camp is a chance for your child to explore the world of music, dance, theater, visual and fine arts. We will incorporate books, activities and materials to encourage process art while we talk about the many forms that art can take. Our program will immerse children in an imaginative environment to inspire and develop their creativity.

**Transportation:** This two week camp is perfect for toddlers who seem to always be on the go. We will explore different types of transportation and vehicles through hands on play and other materials. Let's learn about how we get from here to there. A walk to see trains, boats, cars, and hopefully airplanes will be the culmination of this camp.

**Zoo Animals:** We're going to the zoo, zoo, zoo! This camp will bring the zoo to the toddler classroom. We will explore all kinds of animals that can be found at the zoo through song, story, and dramatic play. We will also have lots of different work and sensory projects to learn more about animal families and how they live. Finally, we will have some animals come in to our school and meet the children.

**Nature and Camping:** During this two week camp we will explore the great outdoors! We will have a special visitor come to the classroom to do nature projects. We will set up tents and include fun camping activities for your toddler. We will have nature walks, picnics, and do some gardening while learning about how to take care of our earth and immerse ourselves in nature.
